

THE RETAIL DESTINATION OF THE WORLD.

THE NEW
LANGUAGE
OF LUXURY.

Sector - 150, Noida

THE REVIVAL BEGINS HERE

One of the pillars of the Indian economy, retail has been contributing significantly to India's GDP. Despite taking a hit due to Covid, the retail sector has seen a steady recovery post the unlock, reaching 80% of pre-covid gross merchandise value (GMV) levels and is pegged at about \$780 billion this year¹. Modern retail share in total retail is expected to touch 18% by 2025 from about 12% in FY2021.

NOIDA'S FINEST HIGH-STREET OVERLOOKING A 40-ACRE PARK

The 40-acre prolific Shaheed Bhagat Singh Park asserts its authority strategically opposite City Center 150. The exuberant park lends an enviable significance to the location of the high street in the overall layout of the sector. One of India's largest parks, this hotspot draws crowds not only from Sector 150 but also from the nearby areas and serves as a tremendous footfall driver for the project. To add to that, the lush green park elevates the atmosphere of pubs and restaurants on the top floor, as you enjoy a magnificent view while having the perfect meal. Not only does it add to the charm of the entire sector, but also serves as a strategic extension from a commercial point of view to City Center 150.

RETAIL SPACES: A GOOD SPACE TO BE IN

Organised retail is here to stay and retail spaces or shops offer one of the highest yields among all real estate investment.

Commercial real estate was on a growth trajectory till 2020. Even though the COVID-19 crisis slowed down the growth, the market is expected to witness an upsurge in demand as the situation gets better. the commercial real estate sector of NCR is likely to report growth, due to improved demand. It further stated that NCR's commercial real estate continues to perform more than any other real estate asset class and promises growth.

EXPLORE THE POSSIBILITIES

As consumer behavior changes, so do retail offerings. Things that used to occupy a small shop space are now full-blown stores, or have entire floors dedicated to them. Similarly, there are new opportunities in almost every segment.

Apart from food & beverages, which in itself is a huge category, there are many other categories in retail which could see various businesses flourish.

HEALTH & BEAUTY

With greater consciousness among consumers, the spend on health and beauty products has gone significantly up. A few retail chains have come up to take advantage of this increased demand, but there still remains a huge market and many opportunities here.

GADGETS & ELECTRONICS

The market for gadgets will keep expanding as products keep getting upgraded to new technologies. Mobiles and laptops make for their own exclusive category here, with an ever-increasing demand.

HOME FURNITURE & HOUSEHOLD GOODS

This is a category that organized retail has barely started exploring. For a market size this large, it remains a space full of great potential and opportunities.

FASHION & FOOTWEAR

When it comes to clothing and footwear, there is an exhaustive list of Indian and international brands that exist in the market and new ones making their way. However, considering the ever-changing category it is, there are never too many choices and never a lack of opportunity here.

LEISURE & PERSONAL GOODS

There remain a whole lot of retail possibilities like gifting, bookshops, customised products, stationery and more, which have their own niche market.
